Briefly describe where your students demonstrated strengths in their learning.	Reflection	Anonymous	Students learn the components of CALM and COOL very quickly. They are also very adept at pointing out when each of those processes should be used.	2017-05-05	
Briefly describe where your students demonstrated gaps in their learning.	Reflection	Anonymous	Students struggled to apply the concepts of conflict resolution to their daily lives. This wasn't totally unexpected since this is the first course in conflict resolution at TIL. Even though they learn about conflict resolution strategies in class, when conflict happens, they fall back on old habits and patterns of dealing with it. When asked how they handled a conflict, the most common answer is "I just ignore it" the second most common response was "I told the staff". In class they are taught to talk to the person that they have a conflict with when they feel it is safe to do so without making the problem worse. Actively dealing with conflict isn't required at this level, but my goal is that they see that what they learn in class can be applied outside of it.	2017-05-05	
What additional information did you glean from your findings?	Reflection	Anonymous	I think real world conflict needs to be a bigger part of the class. Whenever possible I need to ask about conflicts that they have had and how they dealt with them. This could be difficult to do well because conflicts often involve members of the same class.	2017-05-05	
What methods of authentic assessment did you employ to determine SLO results for your students?	Reflection	Anonymous	The simplest form of authentic assessment would be to use conflict resolution strategies on a real world conflict. I know that they students are encouraged to use these strategies by the TIL staff, but this occurs on our side my presence, and I don't have access to information about how the students perform in those situations. Nor, am I sure that it would be appropriate for me, as a non-TIL staff member, to have that information.	2017-05-05	
How might your findings relate to program improvement?	Reflection	Anonymous	I'm not sure	2017-05-05	
What professional development activities would assist you in improving your course or program?	Reflection	Anonymous	The TIL offered a "best practices" lunch time in-service for adjunct faculty last year that I found helpful. Maybe some more activities along those lines.	2017-05-05	
What types of assistance outside of the classroom would benefit the students in mastery of the SLOs, ie tutoring, workshops, resources in the library, from student services, etc?	New Resources	Anonymous	Luckily the TIL staff are very helpful to the students in this regard. Conflict resolution is constantly emphasized. I can see the progress they make over the course of their time at TIL even though that progress isn't made in the classroom. The TIL staff gets to see the students in real world conflict situations and provide great support for the students to resolve those conflicts. For my purposes, it would be great if I had more information about how my students did in conflict situations that occur out of my presence.	2017-05-05	
Please list any additional technology or resources would improve SLO results?	New Resources	Anonymous	No	2017-05-05

What types of changes within your course do you think would assist your students in mastery of the SLOs?	Faculty Proposed Actions	Anonymous	It would be nice if there was a way for me to see how they deal with conflict in a real world situation. Since I only see them in class that opportunity rarely arises.	2017-05-05	
What dialogue do you plan to have regarding your findings?	Faculty Proposed Actions	Anonymous	I plan on talking to the students more about conflict that they are having. I think I'll also talk to the leadership at TIL how my students handle conflict outside of my class.	2017-05-05
