I wonder what might be the reasons students are below expectations, and what if I made these changes to improve the outcomes? Please only consider the changes you have control over. Are additional resources needed? If so, please describe using the Resource Request link.	Reflection	Anonymous	Students are not grasping basic functions of searching, such as AND OR NOT. If I added a question to each assignment about what keywords they searched for and why it did or did not work using Boolean Operators, then the students would have to think critically about their results and would learn that they need to alter their search terms and use the appropriate Boolean Operators in order for the search to be successful.	2017-05-22

LRN >> Learning Support >> INCO1048 >> Section 23 - Spring 2017					
I wonder what might be the reasons students are below expectations, and what if I made these changes to improve the outcomes? Please only consider the changes you have control over. Are additional resources needed? If so, please describe using the Resource Request link.	Reflection	Anonymous	Students are not practicing the functions of research, such as the meaning of AND OR NOT. If I made the assignments reiterate what Boolean Operators are and how to use them, the students may consider why their searches did not work and encourage them to change their keywords for a more successful search. Adding a question to the assignment would require the student to think critically about their search strategy and its outcomes.	2017-05-22

I wonder what might be the reasons students are below expectations, and what if I made these changes to improve the outcomes? Please only consider the changes you have control over. Are additional resources needed? If so, please describe using the Resource Request link.	Reflection	Anonymous	Talk to colleagues to learn their methods.	2017-05-20	
LRN >> Learning Support >> INCO1048 >> Section 43 - Spring 2017					
I wonder what might be the reasons students are below expectations, and what if I made these changes to improve the outcomes? Please only consider the changes you have control over. Are additional resources needed? If so, please describe using the Resource Request link.	Reflection	Anonymous	The student who did not meet expectations did not complete or did poorly on the written assignments regarding topic development, search strategies, and citing sources. Based on student feedback, I think these students would benefit from more peer-interaction and modeling. I will be adding a Student-to-Student Q & A forum, add scenario-based questions to my quizzes, and using "How did you ---? Discussion prompts.	2017-05-23	
LRN >> Learning Support >> INCO1048 >> Section 44 - Spring 2017					
I wonder what might be the reasons students are below expectations, and what if I made these changes to improve the outcomes? Please only consider the changes you have control over. Are additional resources needed? If so, please describe using the Resource Request link.	Reflection	Anonymous	Many of the students had difficulty with grammatical issues, such as alphabetizing and italics, which I will incorporate practices into the lessons in order to address these shortcomings. I plan to provide more opportunities for researching Taft College Library databases using Booleans and other tricks to obtain relevant information and dialogue as a class regarding research methodology.	2017-05-26

Based on the rubric, they all met expectations, even though some were on the lower-end. I wonder if we need to re-work the rubric, as "meeting standards" involved creating an ed. plan that was not usable because of the errors.	2017-08-15
