SCI >> Math >> MATH0230 >> Section 40 - Spring 2017					
I wonder what might be the reasons students are below expectations, and what if I made these changes to improve the outcomes? Please only consider the changes you have control over. Are additional resources needed? If so, please describe using the Resource Request link.	Reflection		No Action Taken		
SCI >> Math >> MATH0240 >> Section 21 - Spring 2017					
I wonder what might be the reasons students are below expectations, and what if I made these changes to improve the outcomes? Please only consider the changes you have control over. Are additional resources needed? If so, please describe using the Resource Request link.	Reflection	Anonymous	Students who took the assessment did well for the most part. Many did not complete the assessment although they were successful in the course. I reopened the assessment at the end to even give them additional time and they still failed to complete the assessment. I am not sure how to make them complete it but will continue to try.	2017-08-15

I wonder what might be the reasons students are below expectations, and what if I made these changes to improve the outcomes? Please only consider the changes you have control over. Are additional resources needed? If so, please describe using the Resource Request link.	Reflection	Anonymous	This was an inmate only course. Students generally did very well. Some phrasing will be added to the syllabus next time to clear up a few minor misunderstandings about what assignments needed to be completed.	2017-08-15

I wonder what might be the reasons students are below expectations, and what if I made these changes to improve the outcomes? Please only consider the changes you have control over. Are additional resources needed? If so, please describe using the Resource Request link.	Reflection	Anonymous	Students who scored in the "mastery" area completed the other course assignments at a high level as well. Students who scored in the "did not meet expectations" either did not complete the course or did not perform well in the course. I send out reminder announcements prior to the SLO quiz due dates and the SLO quizzes also count toward the student's overall grade. I could reopen the assignments after the due dates and give the student's another chance to complete the SLO quiz.	2017-08-15

I encourage resources to be continued to be allocated to this course. I tried some new activities this semester, and I believe this helped students. The next time I teach the course, I will eliminate some online HW assignments and put in their place in class activities and take home activities.	2017-08-15

Lots of students in this course had medical, job, or family issues. I will continue to encourage students to seek our resources as needed, and be flexible with medical situations that arise. I'm happy to be able to refer students to get help with Cal Fresh now.	2017-08-15

Only 2 students did not meet expectations. Only one of those surprised me. I think students did well, because most of them have already taken Physics 1, and Physics 1 lays a good foundation for this SLO.	2017-08-15
