Reflection	Anonymous	This was the first time I taught this course, and it has an asynchronous online format. I noticed many of my students were not viewing the lecture videos. If I were to teach this course again, I would incentive viewing the recorded lectures to encourage students to watch the videos. I would also embed questions/activities to encourage engagement throughout the lecture. Hopefully watching and engaging in the lectures would help improve student outcomes.	2022-09-11
