I wonder what might be the reasons students are below expectations, and what if I made these changes to improve the outcomes? Please only consider the changes you have control over. Are additional resources needed? If so, please describe using the Resource Request drop down.	Reflection	Anonymous	All students met or exceeded expectations. In reviewing all grades for the semester, all students maintained the same level of work. All students earned a 80% or better in the course. A new OER resource will be added to the course in Spring 2022 to replace the current textbook.	2022-01-11

Reflection	Anonymous	Students tend to do well with the content, as this isn't a terribly rigorous class, but many students take this class in the first semester (as intended), and I wonder if a lack of preparedness for online classes plays a role when students aren't performing well. Some just simply seemed to "forget" to do things, which can happen if you aren't used to dedicating time to online classes. I send lots of reminders and such, but some students just trail off.	2022-01-12
