I wonder what might be the reasons students are below expectations, and what if I made these changes to improve the outcomes? Please only consider the changes you have control over. Are additional resources needed? If so, please describe using the Resource Request drop down.	Reflection	Anonymous	Presently, all students met expectations. Three students received FW's as they dropped out before the end of the semester so I did not assess them. The reason they dropped out were: 1) Had to work more hours than previous to support himself due to personal reasons. 2) Work became overwhelming and could not balance work/school. 3) Suffered from mental health issues, received an I and has committed to complete the necessary work by the end of the spring '21 semester.	2022-01-12

Four students dropped out or received EW/FW's for the following reasons - Family illness caused major life interruptions - CV and received an EW - Did not have the personal discipline to complete the class. - I have no understanding as to why as the student never responded to any of my messages	2022-01-12

One suffered from mental health issues. Another just didn't do their homework.</p> <p>I stayed in touch with both of them throughout the semester and worked with them personally, but to no avail.</p> <p>The two that received FW's were two of the same in the 1500 class, family illness and lack of discipline.</p> <p>One student took an I because he/she got lazy due to illness. The good news is that they committed to me to finish up the class this next semester.</p>	<p>2022-01-12</p>

One joined the military to support his family as he did not have the resources, or family support, to stay in school.</p> <p>One flunked as he/she could not grasp even the basic concepts of the material. I referred him to DSPS for evaluation as something was just off with the student.</p>	<p>2022-01-12</p>
