Expected Action	Action Type	Respondent	Action Taken	Date	Resource Request
Default Department >> Science >> PHYS2222 >> Section 20 - Spring 2022					
I wonder what might be the reasons students are below expectations, and what if I made these changes to improve the outcomes? Please only consider the changes you have control over. Are additional resources needed? If so, please describe using the Resource Request drop down.	Reflection		No Action Taken

I emphasized the importance of applying the relative age dating principles to interpret a geologic sequence. The students came through in the end and scored high. I probably would need to invest in some more models to help reinforce the principles.	2022-08-17

Reflection	Anonymous	Overall, students understood the importance in properly collecting, plotting, and analyzing data. The assessment was early in the Final Exam and most students did well on the exercise. I only had one student who did not attempt the assessment. I was pleased with the results otherwise. The entire class is based on the proper collection and interpretation of data.	2022-08-17
