I wonder what might be the reasons students are below expectations, and what if I made these changes to improve the outcomes? Please only consider the changes you have control over. Are additional resources needed? If so, please describe using the Resource Request drop down.	Reflection		No Action Taken

They participated in all class activities. I notice there are students who just kind of drop off the radar and then might periodically complete one or two assignments and then fade again. I will continue to reach out to these students via email but I am unsure of what else I can do to motivate students who clearly do not take their educational goals serious enough to be self-motivated. Just before the drop date to receive a "W" I post an announcement suggesting that taking a "W" is way better than having your GPA drop due to an F. Either way students will need to repeat the course to replace the grade with something better but why not take a "W" and not have your GPA ruined. Even with this, I still had students stay away from the class and earn F's.	2022-09-23

I searched for better OER materials so that students might have access to materials wherever they are with their "pocket computers." I did not have this identified in Spring 2022 but have since identified better sources from the hardcopy textbook. I am hopeful this will keep students on track with assignments.	2022-09-23
